College Registration Guidelines

The following steps outline registration guidelines for college level Pikes Peak State College courses through Concurrent Enrollment at TCA College Pathways.

Current CP Students: To qualify for college level courses, students must first take the Accuplacer college entrance exam (see below) or provide equivalent SAT or ACT scores. For the 2022-2023 school year only, scores from the EdReady exam may be used. ***After first semester sophomores have attended a Pre-College Advising Session and scored college ready on any of the assessments listed, they will need to get a College Readiness Assessment Form (CRAF/green form) from Frank Haist, fhaist@asd20.org***

Students New to CP: To qualify for college level course, students must first take the Accuplacer college entrance exam (see below) or provide equivalent SAT or ACT scores.

College Level Course Registration: College registration must be completed *in this order:*

If using Accuplacer scores:

1. **Apply online to Pikes Peak State College**, which will generate a PPSC student "S" Number and Password. ***Write down*** your "S" number and password.
2. **Apply online for College Opportunity Fund (COF).**
3. **Take the Next Generation Accuplacer college entrance exam at the PPSC Testing Center** – Free Next Gen Accuplacer prep materials and sample questions are available on the College Pathways homepage at the **College Advising/Planning** tab. To avoid testing fees bring a photo ID and your PPSC student S# on testing day. Schedule a testing session at PPSC via eSars (click here).
4. **Submit Accuplacer Scores** to Frank Haist: fhaist@asd20.org.
5. **Schedule a College Advising Appointment.** Once college readiness has been confirmed, College Pathways will contact parent to schedule a college advising appointment for both parent and student. (This step is not required if the student only wants to take On Course but not a college class in the next semester.)

If using SAT or ACT scores:

1. Email official SAT/ACT score sheet to Frank Haist (fhaist@asd20.org) and to the PPSC Testing Center (testing.center@ppcc.edu). You must include your PPSC S# when sending to the Testing Center.
