My academic and career goals are:

The **first words** that come to mind when I describe myself are:

List the 3 most **distinguishing** or most **admirable qualities** about yourself that sets you apart from other students. Describe each in a few sentences and think about the qualities that a teacher/advisor would use to describe you.

Describe & evaluate a **significant experience or achievement** that has had special meaning to you in your past volunteer/leadership work.

Explain a time or circumstance in which you have made an **impact on another person** (or people) and how this experience has affected you.

Describe your **accomplishments**, in or out of school, including things like leadership positions, competitions, major papers/assignments/presentations, science experiments, artistic projects, awards & honors.

What do you consider your most important **priorities** and **passions** outside of school? List jobs (paid or voluntary), sports, religious activities, hobbies, travel, music, art, drama, etc. Include the number of years of your involvement and/or the amount of time you spend on the activity.
