

## College Pathways Home School Credit Verification Request

College Pathways wishes to honor students who have earned credit from another accredited institution or through home school. In order to preserve the integrity of the College Pathways transcript and to meet the standards of our authorizer, Academy District 20, the academic quality of any course we place on the CP transcript must be thoroughly documented. If the coursework completed is through a non-accredited agency such as a home school or a cooperative, then we ask the student to provide as much information as possible to help us grant credit appropriately.

Please use the table below to describe the items that respond to each category, and then attach all available documentation that substantiates the description.
