

The Classical Academy has two approved throat lozenges for students to have on their person without a provider order. These lozenges can be kept in their classrooms, but not shared with other students. I ask that if you are sending lozenges with your student to please email the teacher so they are aware and can observe for safety within the classroom. We ask that students do not have them in their mouths at recess or PE.

The two approved throat lozenges are:

Luden's

and

Halls Breezers

Thank you,
