

TCA Traditional Math Flow Chart

Updated April 2022

High School Requirements: Students must complete three years of math in 9th - 12th grades, Algebra 1 and higher, at least to Algebra 2. Recommend 8 credits in high school.

AP Statistics: Elective that can be taken anytime after Algebra 2. Could be taken in conjunction with another math course.
Pre-requisite: C in Algebra 2 or a passing grade in FST or Pre-Calculus. Recommended: 80 or higher in Algebra 2 or completion of FST or Pre-Calculus.

Advanced Quantitative Reasoning (AQR): Elective that is intended for juniors and seniors who have completed Algebra 2 and do not need higher level math content.
